Panel Discussion	**All Faculty**

Dear conference participants,

We are delighted to invite you to the Medison-sponsored satellite symposium **"A Call for Earlier Multidisciplinary Team Involvement"** taking place on Friday, 5 June 2026 at 13:05-14:05 CEST in the Hall 2 at Baltic Ear, Nose & Throat and Head & Neck Surgery Conference 2026.

Join us for this exciting programme to hear the perspectives of a surgical oncologist, medical oncologist on overcoming therapeutic challenges in high risk cSCC. **The expert panel will discuss the definition of high risk features, outline the new treatment recommendations in international guidelines for these cSCC patients, and debate when the use of adjuvant immunotherapy is appropriate in the management of high risk cSCC.**

Do not miss the opportunity to share your perspectives during the interactive panel discussion.

We hope to see you there and You are kindly invited to the satellite session!

To help us estimate the number of participants at the satellite symposium, please register by email if possible at **bent2026@conference-expert.eu**

cSCC, cutaneous squamous cell carcinoma

This symposium is intended for healthcare professionals only.
